# TakeTask

Mobile application used to assign, execute and verify tasks
on a large scale in many locations simultaneously for any industry

CONSISTENT EXECUTION thanks to digital transformation of operations in retail

Employees know the guidelines better, comply with standards, fulfil their duties on time, report honestly and react on feedback.

Managers receive instant reporting, give feedback in real time, and base decisions on high quality data.

Benefits: After implementing TakeTask, all of our clients have increased operational effectiveness and boosted their sales by improving customer service.

Challenge
Large companies struggle to control false reporting, poor execution and suboptimal communication for their deskless workers.

Solution
TakeTask allows managers to quickly create and distribute tasks and workers to report their completion and receive feedback in real time.

Operations
Food safety and cleanliness
Regular and self audits
Maintenance procedures

Marketing & Sales
Merchandising and in-store promotions
Prices monitoring
Customer service

Other
Human Resources
Employee innovations
